

INCLUSIVENESS

Caring Growing Sharing

Atul Ltd | Annual Report 2014-15

We will be responsible towards nature and protect the environment (caring), build teams and expand our organisations (growing) and bring out our intrinsic goodness – to be unconditional givers – and create, in our own small way, an integrated society (sharing). This approach of Inclusiveness where growing is synonymous with caring and sharing is what our Company has stood for since its inception in 1947. The world-famous mangoes come from Valsad (the district in which our Company established its first facilities); mango trees therefore are perhaps an apt metaphor to denote our endeavour of caring, growing and sharing.

Forward looking statements

In this Annual Report, we have shared information and made forward looking statements to enable investors to know our product portfolio, business logic and direction and thereby comprehend our prospects. Such and other statements - written and oral - that we may periodically make are based on our assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'believe', 'estimate', 'intend', 'plan', 'project' or words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised although we believe we have been prudent in our assumptions. The actual results may be affected because of uncertainties, risks and even inaccurate assumptions. If uncertainties or known or unknown risks materialise or if underlying assumptions prove inaccurate, actual results can vary materially from those anticipated, believed, estimated, intended, planned or projected. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.

Mr Balwantrai Mazumdar
(1902 – 1981)

An economist, Mr Balwantrai Mazumdar was a voracious reader, sound thinker, patient listener and farsighted professional. He created an atmosphere of camaraderie that brought out the collective best of the people of Atul. He was the moving force behind making Atul Complex one of the largest eco-friendly chemical sites. He remained with the Group till the end of his life as did most of the people who worked with the Founder.

Mr Kasturbhai Lalbhai
(1894 – 1980)

The legacy of our Founder has been synonymous with 3 terms in the broadest sense: excellence, perseverance and trusteeship. We, the people of Atul, have the most onerous of responsibilities; to expand and diversify business footprints and follow his figurative footsteps. We will endeavour to achieve this remit in full measure.

Mr Siddharth Kasturbhai
(1923 – 1998)

A chemical engineer and the elder son of our Founder, Mr Siddharth Kasturbhai dedicated his life in the development of Atul Conglomerate, according equal value to the creation of wealth and service to society. The principles he upheld of trusteeship in governance, the personal qualities he lived by of integrity, perseverance, low profile and simplicity and the single-minded devotion he gave to the tasks on hand will remain our guiding force.

United by Values

The name Atul is a unique asset, which amongst others, represents a rich heritage of Values. In an environment where change is a way of life, continuity of Values is fundamental to us. We have therefore formalised key Values and are committed to institutionalise them. We will seek to create an environment wherein these Values are consistently practised and nurtured and ensure that they are not compromised to realise short-term gains.

Integrity ...

Integrity means working with honesty, following the highest standards of professionalism. Integrity is when our decisions and actions remain consistent with our thoughts and words, written or spoken.

Understanding ...

How well we work with others depends on our ways to connect and this in turn is based on our level of Understanding of human relationships. This certainly does not mean that we accept poor performance, but that we do it the right way. Understanding is the external manifestation of internal realisation.

Unity ...

Unity means working together and taking advantage of synergy while harnessing unique abilities of each of us to achieve a larger goal. Unity is the realisation that though we may work in different areas, we are finally interconnected and that interdependence is a higher order of living than independence. Though we may be many, we share a common purpose.

Responsibility ...

Responsibility means delivering value and taking ownership of actions. Responsibility must also give us the realisation that what is good for the business must be in the overall good. In essence, we must work with the spirit of trusteeship not only for the Shareholders, but also for the other Stakeholders. What comes to us must be returned many times over.

Excellence ...

Excellence is a drive that is more from inside than outside; it is about us seeking to continuously improve and develop an eye for innovation even in day to day work. Excellence is about excelling in everything we do and not giving up. Excellence is also a journey, not simply a destination in itself.

Letter to the Shareholders

Dear Shareholder,

During the fiscal, we pursued the Purpose enunciated by our *karmayogi* Founder, Mr Kasturbhai Lalbhai, while endeavouring to imbibe, nourish and promote the Values he so fondly cherished. We remained committed to continuing his legacy of conducting business that reflects its true purpose. To actualise this, we prepared ourselves further for growing meaningfully in a more competitive world; simultaneously we worked so as to consistently and increasingly give back to each section of the Stakeholders.

2014 was a year of optimism for many economies – the **world GDP** grew by 3.4% to US\$ 77.3 t. The USA led the show – its GDP grew by 2.4% to US\$ 17.4 t, that of China grew by 7.4% to US\$ 10.4 t and that of Euro Area grew by 0.9% to US\$ 13.4 t. The GDP of India grew by 7.2%* to US\$ 2.1 t. 2015 has had a shaky start – many believe that recession is likely to plague some economies, and demand is likely to remain subdued at least in the first half.

World Chemical Industry, the size of which is US\$ 4.3 t, grew by 2.5%. India at US\$ 100 b* grew at 4% and continued to remain at number 7. China at US\$ 1.5 t grew at 5% and maintained its number one position. The other five countries ahead of India, namely the USA, Japan, Germany, South Korea and France, showed growth between -0.8% and 4% in 2014. The Industry is expected to grow slower at 2% during 2015; nonetheless we will work with focus and optimism and promote the 'Make in India' theme in our own small way.

Our Company put forward improved **results** for the fiscal: sales grew to ₹ 2,510 cr (↑9%), EBITDA increased to ₹ 391 cr (↑8%) and PBT from operations increased to ₹ 312 cr (↑13%). EBITDA margin at 16% remained almost unchanged because of increase in fixed costs. The increases in sales and profit were small – indeed, we believe that we have the potential to perform significantly better. The Board has recommended a dividend of 85%, the highest so far, reflecting confidence in the future.

*2014-15

Atul Ltd | Annual Report 2014-15

During the fiscal, our Company completed 4 **projects** with an investment of ₹ 33 cr which are expected to generate sales of ₹ 143 cr at full capacity utilisation; 7 projects with an investment of ₹ 321 cr are underway, which on completion, at full capacity utilisation, are expected to generate sales of ₹ 554 cr, and it will be within the reach of our Company to aim for achieving sales of ₹ 4,000 cr in 2017-18, as we see at present. In addition, we are continuously taking up small capital expenditure proposals for debottlenecking and upgradation as we believe we have a lot to harness and optimise from what we already have.

The **subsidiary and joint venture companies** have further improved their performance: Atul Bioscience grew its sales and PBT by 37% and 50% to ₹ 47 cr and ₹ 6 cr respectively. Rudolf Atul Chemicals increased its sales and PBT by 42% and 55% to ₹ 43 cr and ₹ 8 cr respectively. DPD grew its sales and PBT by 17% and 9% to £ 1.6 m and £ 0.3 m respectively. Atul Rajasthan Date Palms will commence sales only during 2015-16. The proposal to merge Amal Ltd, an associate company, was approved by the Board of our Company.

Atul Brasil Quimicos, a subsidiary of our Company, is expected to help grow sales in South America. Atul USA, Atul Europe and Atul China have further improved their sales and are expected to increase trading of products other than those manufactured by our Company. Our Company established Atul Middle East FZ-LLC for growing sales in that part of Asia and Africa. These actions reflect the aspirations of our Company to grow across the world and focus on better, more informed **service to our customers**.

Atul Foundation (Trust) under which all other trusts, institutions, etc promoted by our Company related to **social responsibility** are placed, continued to serve the society mainly in the areas of education, empowerment, health, relief, infrastructure and conservation. Page number 18 will give a broad idea about some initiatives. The creation of Atul Institute of Vocational Excellence, replete with world-class infrastructure facilities (which

When a company grows its business while caring for the environment and sharing (its knowledge, resources and profit) with the society, it is actually making its own journey sustainable; this is because it then no longer exists for its own narrow objective of profit, but instead becomes a part of the whole ecosystem – with this, it consists of every element of the whole, working for a larger purpose. Our legendary Founder, Mr Kasturbhai Lalbhai, established businesses keeping in focus this eternal truth, and the team Atul is endeavouring to carry forward this enriching legacy.

New registered office of Atul in Ahmedabad (inaugurated on January 21, 2015)

will be inaugurated in 2015-16), will actualise further our enduring commitment to the society.

All that our Company is doing, related to business or social work, is impossible without the most important asset, its **people**. I very much value the commitment and contributions of the members of Atul family, most of whom are 'working behind the scenes'.

Atul HR continued to focus on improving processes related to performance management and training and development. An improved Reward and Recognition Scheme has been evolved effective January 1, 2015.

The **Non-executive Directors** on our Company Board are amongst the best; my colleagues and I are privileged to benefit from their varied experience and receive their constructive criticism, encouragement and guidance. Mr Gopal Patel chose to retire because of ill-health; the Board will miss a man with a keen eye for detail. Our Company has inducted three accomplished professionals, Mr Mukund Chitale, Ms Shubhalakshmi Panse and Mr Baldev Arora, as Independent Directors.

India is on the threshold of unprecedented growth, and we will participate in this new story in different ways, by growing existing products, adding

downstream products, introducing related products and seeding new products - all by enhancing focus on serving our customers and understanding their dynamic expectations. To make this happen, we will work with a **steely resolve**, with a **spirit of solidarity** and with a **sense of common purpose** which have always propelled businesses further.

As a company whose inherent core Values are Indian – where growing is considered incomplete without caring and sharing – we will expand our business footprints while protecting the environment and serving the society with similar rigour. We are reinforcing this concept of **Inclusiveness** in our approach to business, and I am certain, as a Shareholder, you are equally convinced about the strength of this universal concept which has enabled our Company to sustain business and create value over a long period of time.

As we 'turn yet another page' of our lives, may God bless us all to work for and write a brighter future.

Sincerely,

(Sunil Siddharth Lalbhai)

Life Science Chemicals Segment

	2014-15	2013-14	% Change
Sales (₹ cr)	676	738	(9)%
Share in total sales (%)	27	32	(5)%

Life Science Chemicals Segment consists mainly products of Crop Protection and Pharmaceuticals and Intermediates Businesses:

Crop Protection

Product Groups: Fungicides, Herbicides, Others

The products falling under these product groups are used by customers belonging to Crop Protection Chemicals and Agriculture industries. The product groups comprise about 15 products and 48 formulations. 2,4-D, Indoxacarb and Nicosulfuron are some of the key products.

During 2014-15, sales decreased by 21% from ₹ 433 cr to ₹ 342 cr. Sales in India decreased by 2% from ₹ 197 cr to ₹ 194 cr; bulk sales in India decreased by 22% from ₹ 94 cr to ₹ 73 cr whereas brand sales which are currently only in India increased by 17% from ₹ 103 cr to ₹ 121 cr. Sales outside India decreased by 37% from ₹ 236 cr to ₹ 148 cr and formed 43% of the total. Decline on account of volume was 20%. Sales decreased mainly because of lack of demand for one of the key herbicides. Sales from new products and formulations were ₹ 4 cr. The Company completed 3 projects and undertook 1 project for implementation.

The size of world Crop Protection Chemical industry is estimated at US\$ 56 b and is growing at about 3.5%. There are about 60 major companies which dominate the world marketplace. The size of world Agriculture industry is estimated at US\$ 3.02 t and is growing at about 1.50%.

The main user industries, namely Crop Protection Chemicals and Agriculture, are growing well because of the need to feed a growing population under constraints of related resources. The Company will participate in this growth by i) building a strong sales and marketing organisation and broadening and deepening its presence in other countries, particularly in Africa and South America, ii) promoting its brand sales, iii) improving its manufacturing and working capital efficiencies, iv) generating and adding capacities and v) introducing new products and formulations.

Floods or famines may adversely affect the demand. Fluctuations in foreign exchange may impact sales realisations. Given that some of these chemicals can be toxic, it is essential to take due care in their manufacture and use. Registration costs are high in certain countries.

Pharmaceuticals

Product Groups: Active Pharmaceutical Ingredients, API Intermediates, Others

The products falling under these product groups are used by customers belonging to Pharmaceutical industry for various therapeutic categories, such as anti-depressant, anti-diabetic, anti-infective, anti-retroviral and cardiovascular. The product groups comprise about 50 products. Cbz-L-Valine, 1-Chloroethyl isopropyl carbonate and (S)-1-(2-chloroacetyl) pyrrolidine-2-carbonitrile are some of the key products.

Atul Bioscience Ltd (ABL), a 100% subsidiary company, focussed on production of advanced API intermediates and increased its sales by 37% from ₹ 35 cr to ₹ 47 cr, primarily because of volume; it undertook 1 project for implementation.

The size of world API industry is estimated at US\$ 120 b and is growing at about 9.4%. There are about 20 major companies which dominate the world marketplace. The size of world Pharmaceutical industry is estimated at US\$ 0.8 t and is growing at about 8%.

The main user industry, namely, Pharmaceutical, is growing well because of increasing awareness about diseases and health. The Company along with ABL will participate in this growth by i) widening its market reach, ii) increasing its manufacturing efficiencies, iii) generating and adding capacities and iv) introducing new products. It will also form long-term strategic alliances with other companies.

The prices of some products may come down in a short time. Fluctuations in foreign exchange may impact sales realisations.

Segment: Performance and Other Chemicals

	2014-15	2013-14	% Change
Sales (₹ cr)	1,834	1,569	17
Share in total sales (%)	73	68	5

The size of world Fragrance industry is estimated at US\$ 10.5 b and is growing at about 4% and the size of world Personal Care industry is estimated at US\$ 1 b and is growing at about 5%.

The main user industries, namely, Fragrance and Personal Care, are growing well because of improving standard of living. The Company will participate in this growth by i) broadening its market reach, ii) increasing its manufacturing efficiencies, iii) generating and adding capacities and iv) introducing new products.

The prices of key raw materials which are derived from crude oil fluctuate almost monthly whereas the customers in the user industries expect the prices of the finished products to remain firm for a quarter or even more; on such occasions, it is possible to get affected adversely. The captive consumption of bulk chemicals is expected to grow as the Company expands manufacturing capacities of its various products. Tyre industry is expected to grow further because of increasing population on the one hand and improving standard of living on the other. The Company will participate in this growth by i) widening its market reach, ii) increasing its manufacturing efficiencies, iii) generating and adding capacities and iv) introducing downstream products.

The Company along with RACL will participate in this growth by i) broadening its market reach in new geographies, ii) increasing its manufacturing and working capital efficiencies and iii) introducing new dyes, pigments and products for non-textile applications.

Fluctuations in foreign exchange and availability of raw materials may impact sales realisations. Treatment costs are expected to remain high given that the manufacture of dyes and pigments generates significant pollutants.

The products falling under these product groups are used by customers belonging to Aerospace, Automobile, Composites, Construction, Defence, Electrical and Electronics, Footwear, Paint and Coatings, Paper, Sports and Leisure and Wind Energy industries. The user industries, Construction, Defence, Electrical and Electronics, Paint and Coatings and Wind energy are growing well, particularly in India. The Company will participate in this growth by i) widening its market reach, ii) increasing its manufacturing and working capital efficiencies, iii) generating and adding new capacities of Epoxy resins and hardeners and iv) introducing new products and formulations.

Cheaper imports of Epoxy resins and hardeners may keep the contribution margins under pressure. Since the two main raw materials, namely Bisphenol-A and Epichlorohydrin, are imported, fluctuations in foreign exchange may impact margins.

Item number 10

The existing Articles of Association (AoA) are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific Sections of the Companies Act, 1956. The Companies Act, 2013 (new Act) has been enacted.

The Ministry of Corporate Affairs (MCA) has notified most of the Sections of the new Act (barring those provisions which require sanction | confirmation of the National Company Law Tribunal ('Tribunal') such as variation of rights of holders of different classes of shares (Section 48), reduction of share capital (Section 66), compromises, arrangements and amalgamations (Chapter XV), prevention of oppression and mismanagement (Chapter XVI), revival and rehabilitation of sick companies (Chapter XIX), winding up (Chapter XX) and certain other provisions including, inter alia, relating to Investor Education and Protection Fund (Section 125) and valuation by registered valuers (Section 247).

Substantive Sections of the new Act which deal with the general working of companies therefore stand notified. Under the new Act, several rules and regulations have been framed and some of them have been further amended. With the coming into force of the new provisions, several regulations of the existing AoA of the Company require alteration or deletion. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles.

The new AoA to be substituted in place of the existing AoA are substantially based on Table 'F' of the Act which sets out the model AoA for a company limited by shares. Salient provisions in the new draft AoA of the Company are (a) Its lien now extends also to bonuses declared from time to time in respect of shares over which lien exists; (b) the nominee (s) of a deceased sole Member are recognised as having title to his | her interest in the shares; (c) new provisions regarding application of funds from reserve accounts when amounts in reserve accounts are to be capitalised; (d) new provisions relating to appointment of the Chief Executive Officer and the Chief Financial Officer, in addition to the Manager and the Company Secretary; (e) existing AoA have been streamlined and aligned with the new Act; (f) the statutory provisions of the new Act which permit a company to do some acts 'if so authorised by its Articles' or provisions which require a company to do acts in a prescribed manner 'unless the Articles otherwise provide' have been specifically included and (g) provisions of the existing AoA which are already part of statute in the Act have not been reproduced in the new draft AoA as they will be superfluous – their non-inclusion makes the new AoA concise and clear.

The proposed new draft AoA is uploaded on the website of the Company at http://www.atul.co.in/investors/pdf/Draft_Articles.pdf for perusal by the Shareholders. None of the Directors or Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No 10 of the Notice. The Board recommends the Special Resolution set out at Item No 10 of the Notice for approval by the Members.

Notes to the Financial Statements

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

1. Convention:

The Financial Statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis except for certain buildings which are being carried at fair valued amounts. Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 will continue to apply. Consequently, the Financial Statements have been prepared to comply in all material aspects with the Accounting Standard notified under Section 211(3C) of the Companies Act, 2013, Companies (Accounting Standards) Rules, 2006, as amended and other relevant provisions of the Companies Act, 2013. The Accounting Policies which have been applied consistently, are set out below.

2. Basis of preparation:

All assets and liabilities have been classified as current or non-current as per the normal operating cycle of the Company and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

3. Use of estimates:

The preparation of the Financial Statements in conformity with Generally Accepted Accounting Principles requires the Management to make assumptions and estimates that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the Financial Statements and the results of operations during the reporting period. These estimates are based on the evaluation of the relevant facts and circumstances as on the date of the Financial Statements by the Management, which may differ from future revisions and actual results in subsequent periods. Differences are adjusted in subsequent periods as they occur.

4. Fixed assets:

a) Tangible assets:

- i) Fixed assets other than ii) below are carried at cost of acquisition | construction including incidental expenses directly attributable to the acquisition | construction activity, as the case may be, less accumulated depreciation, amortisation and impairment as necessary.
- ii) Assets received free of cost on premature cancellation of a lease agreement are valued at fair value at the time of receipt by credit to Capital reserve less accumulated depreciation and impairment as necessary.
- iii) Spares specific to a machinery are carried at cost and allocated over the useful life of the asset.
- iv) Capital work-in-progress is carried at accumulated cost incurred upto the date of the Financial Statements.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES (continued)

5. Depreciation and amortisation expenses:

Depreciation:

- a) Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets.
- b) Depreciation is calculated on a pro-rata basis from the date of acquisition | installation till the date the assets are sold or disposed of.
- c) Machinery spares which are capitalised, are depreciated over the useful life of the related fixed asset. The written down value of such spares is charged in the Statement of Profit and Loss, on issue for consumption.
- d) Leasehold land is amortised on a straight-line basis over the period of lease.
- e) Depreciation and amortisation methods, useful lives and residual values are reviewed periodically, including at each financial year end. {refer Note 12(c)}
- f) Useful lives as prescribed under Part C of Schedule II to the Companies Act, 2013 are applied except following categories where the Management has estimated shorter useful lives for all asset categories:

Asset category	Useful life
Plant and machinery*	7 to 15 years
Vehicles*	6 to 10 years

*For the above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act, 2013.

Amortisation

Computer Software cost is amortised over a period of three years using straight-line method.

6. Impairment of assets:

The carrying amounts of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal | external factors. An impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances.

7. Finance costs:

Borrowing costs in relation to acquisition and construction of qualifying assets are capitalised as part of cost of such assets up to the date when such assets are ready for intended use. Other borrowing costs are charged as expense in the year in which these are incurred.

8. Investments:

Investments that are intended to be held for more than a year, from the date of acquisition, are classified as long-term investments and are carried at cost. However, provision for diminution in value of investments is made to recognise a decline, other than temporary, in the value of the investments.

Current investments not intended to be held for a period more than one year are stated at lower of cost and fair value.

9. Inventories:

- a) Raw materials, packing materials, purchased finished goods, work-in-progress, finished goods manufactured, fuel, stores and spares other than specific spares for machinery are valued at cost or net realisable value whichever is lower. Cost is arrived at on moving weighted average basis. However, materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- b) Goods-in-transit and in bonded warehouse are stated at the cost to the date of Balance Sheet.

- c) Exchange differences:
All exchange differences arising on settlement and conversion of foreign currency transactions are included in the Statement of Profit and Loss. The Company has opted to avail the option provided under paragraph 46A of Accounting Standard-11 'The effects of changes in foreign exchange rates' inserted vide Notification dated December 29, 2011 issued by the Ministry of Corporate Affairs, Government of India. Consequently, foreign exchange difference on account of long-term foreign currency borrowings utilised to acquire a depreciable asset, is adjusted in the cost of the depreciable asset, which will be depreciated over the balance life of the asset.
- d) Forward exchange contracts not intended for trading or speculation purposes:
The premium or discount arising at the inception of forward exchange contracts intended to hedge existing exposures is amortised as expenses or income over the life of the contracts. Exchange differences on such contracts are being recognised in the Statement of Profit and Loss for the year. - e) Derivatives:

The revalorisation gain or loss on Mark-to-Market (MTM) is generally recognised in the Statement of Profit and Loss each year. However, on account of option exercised as per (c) above MTM gains and losses on instruments intended to hedge long-term foreign currency borrowings utilised to acquire depreciable assets are recognised to offset foreign exchange fluctuation differences on such long-term foreign currency borrowings.
- f) Changes in fair value of derivative instruments intended to hedge future exposures resulting out of 'highly probable forecast transactions' such as exports, is determined as effective hedges of future cash flows, which are recognised directly under 'Hedging reserve' in Shareholders' funds, and the ineffective portion, if any, is recognised immediately in the Statement of Profit and Loss. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time, for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Shareholders' funds is retained there until the

Notes:

- At cost, except certain building premises which are stated at fair value.
- The Company had, in the year 1985 and 2008 revalued certain land and buildings. The residual value of which as at April 01, 2014 aggregated ₹ 102.40 cr. However, with passage of time, the equitable values of the assets under the heads of land and buildings are overall much higher than their carrying values, vitiating the objective of the original exercise of revaluation. The Company has therefore changed its Accounting Policy and decided to show these fixed assets at historical cost only. Accordingly, the Company has reversed the aforesaid amount of Revaluation reserve, which will result in these assets being stated at their historical cost less accumulated depreciation. The above accounting treatment does not have any impact on the Statement of Profit and Loss for the current and subsequent years.
- Consequent to the enactment of the Companies Act, 2013 (Act) and its applicability for accounting periods commencing on or after April 01, 2014, the Company has re-worked depreciation with reference to the useful lives of fixed assets prescribed by PART 'C' of Schedule II to the Act or the useful lives of assets as estimated by the Company, whichever is lower. Where the remaining useful life of an asset is nil, the carrying amount of the asset after retaining the residual value, as at April 01, 2014 has been adjusted to the General reserve. In other cases the carrying values have been depreciated over the remaining useful lives of the assets and recognised in the Statement of Profit and Loss. As a result the charge for depreciation is lower by ₹ 2.37 cr for the year ended March 31, 2015.
- Includes premises on ownership basis ₹ 1.10 cr (Previous year: ₹ 1.10 cr) and cost of fully paid share in co-operative society ₹ 2,000 (Previous year: ₹ 2,000).
- Pursuant to the order passed by Honourable High Court of Gujarat, dated November 17, 2008 and April 17, 2009 in case of water charges, the Company has created first charge over its certain land and buildings in favour of Government of Gujarat and paid security deposit ₹ 2 cr (Previous year: ₹ 2 cr).
- Exchange rate difference capitalised during the year ₹ 2.14 cr (Previous year: ₹ 8.53 cr).
- Exchange rate difference which remains unamortised in accordance with the option exercised under Para 46A of Accounting Standard-11 is ₹ 17.18 cr (Previous year: ₹ 16.62 cr).
- Break-up of depreciation for the year

Notes to the Consolidated Financial Statements

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

1. System of accounting:

- 1.1 The Company, generally, follows the mercantile system of accounting and recognises income and expenditure on an accrual basis except those with significant uncertainties.
- 1.2 The Consolidated Financial Statements are based on historical cost. These costs are not adjusted to reflect the impact of the changing value in the purchasing power of money except in case of certain buildings which are being carried at fair value amount.

2. Principles of consolidation:

- 2.1 The Consolidated Financial Statements include the Financial Statements of Atul Ltd, the parent Company and all of its subsidiary companies (collectively referred to as 'Group'), in which the Company has more than one-half of the voting power of an enterprise or where the Company controls the composition of the Board of Directors.
 - 2.2 The Consolidated Financial Statements are prepared in accordance with Accounting Standard-21 'Consolidated Financial Statements', notified pursuant to the Companies (Accounting Standards) Rules, 2006 (as amended).
 - 2.3 The investments in associate companies are accounted in these Consolidated Financial Statements in accordance with the requirements of Accounting Standard-23 'Accounting for Investments in associate companies in Consolidated Financial Statements', notified pursuant to the Companies (Accounting Standards) Rules, 2006 (as amended). For details refer Note no 28.8
 - 2.4 The investments in joint venture companies are accounted in these Consolidated Financial Statements in accordance with the requirements of Accounting Standard-27 'Financial Reporting of Interest in Joint Venture Company' issued under the Companies (Accounting Standards) Rules 2006 on proportionate consolidation method. Thus the Statement of Profit and Loss, Balance Sheet and Cash Flow Statement of the Group incorporate the share of income, expenses, assets, liabilities and cash flows of the joint venture companies of the Group on a line-by-line basis.
 - 2.5 The Financial Statements of the parent company and its subsidiary companies have been combined on a line by line basis by adding together book values of the items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses.

*For the above class of assets, based on internal assessment and independent technical evaluation carried out by external valuers the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act, 2013.

Amortisation

Computer Software cost is amortised over a period of three years using straight-line method.

An impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances.

The revaluation gain or loss on Mark-to-Market (MTM) is generally recognised in the Consolidated Statement of Profit and Loss each year. However on account of option exercised as per (c) above MTM gains and losses on instruments intended to hedge long-term foreign currency borrowings utilised to acquire depreciable assets are recognised to offset foreign exchange fluctuation differences on such long-term foreign currency borrowings.
- f) Changes in fair value of derivative instruments intended to hedge future exposures resulting out of 'highly probable forecast transactions' such as exports, is determined as effective hedges of future cash flows, which are recognised directly under 'Hedging reserve' in Shareholders' funds, and the ineffective portion, if any, is recognised immediately in the Consolidated Statement of Profit and Loss. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Consolidated Statement of Profit and Loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time, for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Shareholders' funds is retained there until the forecasted transaction occurs. Notes:

- a) At cost, except certain building premises and plant and equipment stated at fair value.
- b) The Company and one of its subsidiary companies had, in the year 1985, 2008 and 2011, revalued certain land and buildings. The residual value of which as at April 01, 2014 aggregated ₹ 108.97 cr. However, with passage of time, the equitable values of the assets under the heads of land and buildings are overall much higher than their carrying values, vitiating the objective of the original exercise of revaluation. The Company has therefore changed its Accounting Policy and decided to show all these fixed assets at historical cost only. Accordingly, the Company has reversed the aforesaid amount of Revaluation reserve, which will result in these assets being stated at their historical cost less accumulated depreciation. The above accounting treatment does not have any impact on the Statement of Profit and Loss for the current and subsequent years.
- c) Consequent to the enactment of the Companies Act, 2013 (Act) and its applicability for accounting periods commencing on or after April 01, 2014, the Company has re-worked depreciation with reference to the useful lives of fixed assets prescribed by PART 'C' of Schedule II to the Act or the useful lives of assets as estimated by the Company, whichever is lower. Where the remaining useful life of an asset is Nil, the carrying amount of the asset after retaining the residual value, as at April 01, 2014 has been adjusted to the General reserve. In other cases the carrying values have been depreciated over the remaining useful lives of the assets and recognised in the Statement of Profit and Loss. As a result the charge for depreciation is lower by ₹ 2.28 cr for the year ended March 31, 2015.
- d) Includes premises on ownership basis ₹ 1.10 cr (Previous year: ₹ 1.10 cr) and cost of fully paid share in co-operative society ₹ 2,000 (Previous year: ₹ 2,000).
- e) Pursuant to the order passed by Honourable High Court of Gujarat, dated November 17, 2008 and April 17, 2009 in case of water charges, the Company has created first charge over its certain land and buildings in favour of Government of Gujarat and paid security deposit ₹ 2 cr (Previous year: ₹ 2 cr)
- f) Exchange rate difference capitalised during the year ₹ 2.14 cr (Previous year: ₹ 8.53 cr).
- g) Exchange rate difference which remains unamortised in accordance with the option exercised under Para 46A of Accounting Standard-11 is ₹ 17.18 cr (Previous year: ₹ 16.62 cr).
- h) Break-up of depreciation for the year

Mr Shrenik Kasturbhai
(December 28, 1925 to June 19, 2014)

a tribute ...

Mr Shrenik Kasturbhai, inaugurating on March 17, 2012, the Inspiring Centre that depicts the life and times of our Founder, Mr Kasturbhai Lalbhai

Mr Shrenik Kasturbhai, after completing BS from Massachusetts Institute of Technology and MBA from Harvard University, worked as a Managing Director of Anil Starch Ltd and oversaw the finances of Lalbhai Group. He supported our Founder in carrying out social work that comprises several cultural, educational and religious institutions and in the fullness of time led them with distinction.

He was actively involved in promoting and later integrating Gujarat Aromatics Ltd – now called Aromatics (AR) Business – with our Company and took keen interest till the very end of his life in the growth of AR Business and Atul. AR Business steadily improved its performance and generated the highest revenue and the highest profit in 2014-15 for our Company; this is our enduring tribute to his faith, encouragement and support.

We have lost our patriarch, yet his body of work is sure to outlive his physical life. He inherited an enriching legacy genetically, imbibed the spirit, lived his life with exacting principles and embellished the legacy of his father by mentoring the generation next in the family, the organisations as well as the wider society. In the years ahead, his life will continue to inspire us.
