Sub: Environment Clearance to M/s. Atul Ltd for setting up manufacturing plant of 'Synthetic Organic Chemicals' [API Intermediates] at Survey No. 5, 6, 29, 30, 33 to 38, 80, 81, 84, 85, 91, 96 to 105, 108, 112 to 117, 142, 144 to 148, of Atul and 274, 275, 276, 315, 316 and 321 of Haria Village, Taluka& District: Valsad, Gujarat. In Category 5(f) of Schedule annexed with EIA Notification dated 14/09/2006.

Ref: Your Proposal No. SIA/GJ/IND2/234760/2021.

Dear Sir,

This has reference to your application along with Form-1 dated 25/12/2021 submitted to SEIAA, seeking Environmental Clearance under Environment Impact Assessment Notification, 2006.

The proposal is for Environmental Clearance to M/s. Atul Ltd for setting up manufacturing plant of 'Synthetic Organic Chemicals' [API Intermediates] at Survey No. 5, 6, 29, 30, 33 to 38, 80, 81, 84, 85, 91, 96 to 105, 108, 112 to 117, 142, 144 to 148, of Atul and 274, 275, 276, 315, 316 and 321 of Haria Village, Taluka& District: Valsad, Gujarat. It is an existing unit for manufacturing following products, which falls in the category - 5(f) of the schedule of the EIA Notification-2006:

S.	Name of Products	CAS Nos.	Production capacity in MT/Month				
No.			Existing	Proposed	Total		
Existi	ng Production						
Α	Dyes		11170.13	0.0	11170.13		
В	Chlor-Alkali	_	28 633.29	0.0	28633.29		
С	Pesticides Tech		14285.87	0.0	14285.87		
D	Bulk Drug and Pharmaceuticals	-	2329.6	0.0	2329.6		
E	Resins	-	20432.57	0.0	20432.57		
F	Other Chemicals Total Production Capacity of this group Sodium Thiosulphate(dry basis)		62611.127	0.0	62611.12 7		
	OR			_			
	Other Chemicals Total Production Capacity of this group Sodium Thiosulphate(wet basis)		65411.127	0.0	65411.127		
G	Flavors & Fragrances		7233.3	0.0	7233.3		
Н	Co Products:		420	0.0	420		
	ng Total Production Capacity with m Thiosulphate (dry basis)		147115.887	0.0	147115.887		
Existi Sodiu	ng Total Production Capacity with m Thiosulphate (wet basis)	_	149915.887	0.0	149915.887		
Addit	ional Production (Expansion)						
1	Bis(trichloromethyl) Carbonate	616-38-6	0.0	416.667	416.667		
	Proposed Tota	I Production	147115.887	416.667	147532.554		
OR							
	Proposed Tota	I Production	149915.887	416.667	150332.554		

The project activity is covered in 5(f) and is of 'B' Category. Since, the proposed project is categorized as B2 category project by SEAC and located in notified industrial area, public consultation is not required as per paragraph 7(i) (III) (i) (b)&(e) of the Environment Impact Assessment Notification-2006.

Fine SEAC, Gujarat vide their letter dated 09/03/2022 had recommended to the SEIAA, Gujarat, to grant the Environment Clearance for the above-mentioned project based on its meeting held on 17/01/2022. The proposal was considered by SAA, Gujarat in its meeting held on 25/03/2022 at Gandhinagar. After careful consideration, the SEIAA hereby accords in the second project under the provisions of EIA Notification dated 14th September, 2006 subject to the compliance of the following conditions.

Office: Gujarat Pollution Control Board, "Paryavaran Bhavari" Sector-10 A, Gandhinagar-382010 Page 1 of 9
Phone No.:- (079) 232-32152,232-41514 Fax No.:- (079) 232-22784

E-mail: msseiaagj@gmail.com. Website:- www.seiaa.gujarat.gov.in

A.CONDITIONS:

A.1SPECIFIC CONDITION:

- 1. Project proponent (PP) shall consider this Environment clearance exclusively for proposed API product and various conditions under water, Air and Hazardous waste for proposed API plant only and strictly complying conditions accorded by MoEF& CC in recent Environment clearance vide letter dated 03.08.2021 for various group like dyes and dyes intermediate, chlor atkali, pesticide, resin, speciality chemicals, API plant etc.
- 2. PP shall comply conditions of any subsequent amendment or expansion or change in product mix, after the 30th September 2020, considered as per the provisions in force at that time as mentioned in the Notification vide S.O. 1223 (E) dated 27/03/2020.
- 3. PP shall carry out proposed project/activities in respect of Active Pharmaceutical Ingredients (API) as per the amended EIA Notification vide S.O. 1223 (E) dated 27/03/2020 and any subsequent amendments.
- 4. PP shall submit six monthly compliance report of Environmental Clearance without fail and the same shall be critically assessed by the regulatory authority.
- 5. Close loop solvent recovery system with adequate condenser system shall be provided to recover solvent vapours in such a manner that recovery shall be maximum and recovered solvent shall be reused in the process within premises.
- 6. Leak Detection and Repair (LDAR) program shall be prepared and implemented as per the GPCB guidelines. LDAR Logbooks shall be maintained.
- 7. All measure shall be taken to avoid soil and ground water contamination within premises.
- 8. PP shall maintain complete ZLD all the time for proposed products and there shall be no drainage connection and no waste water discharge outside premises from proposed product plant.
- 9. PP shall procure chlorine from existing chlor alkali plant in same complex through pipeline route as per standard operating procedure and guidelines for PESO, as per details submitted by PP.

10. Safety & Health:

- a. PP shall obtain PESO permission for the storage and handling of hazardous chemicals.
- b. PP shall provide Occupational Health Centre (OHC) as per the provisions under the Gujarat Factories Rule 68-U.
- c. PP shall obtain fire safety certificate / Fire No-Objection certificate (NOC) from the concern authority as per the prevailing Rules / Gujarat Fire Prevention and Life Safety Measures Act, 2016.
- d. Unit shall adopt functional operations/process automation system including emergency response to eliminate risk associated with the hazardous processes.
- e. PP shall carry out mock drill within the premises as per the prevailing guidelines of safety and display proper evacuation plan in the manufacturing area in case of any emergency or accident.
- f. PP shall install adequate fire hydrant system with foam trolley attachment within premises and separate storage of water for the same shall be ensured by PP.
- g. PP shall take all the necessary steps for control of storage hazards within premises ensuring incompatibility of storage raw material and ensure the storage keeping safe distance as per the prevailing guidelines of the concerned authority.
- h. PP shall take all the necessary steps for human safety within premises to ensure that no any harm is caused to any worker/employee or labour within premises.
- i. Flame proof electrical fittings shall be provided in the plant premises, wherever applicable.
- j. Unit shall never store drum/barrels/carboys of incompatible material/chemical together.
- k. Unit shall provide effective Isolation for Process area and storage of hazardous chemicals.
- 1. Unit shall provide chlorine leakage control emergency kit and FRP hood with scrubber system for chlorine safety.
- m. Unit shall provide effective fire hydrants, water monitors & foam application system at solvent storage tank farm area. Unit shall provide adequate safety system such as water sprinklers, water curtains, foam pouring system etc to restrict cascade fire emergency in solvent tank farm.

A. 2 WATER:

- 11. Total water requirement for the project shall not exceed 103 KLD. Unit shall reuse 22 KLD of treated effluent within premises. Hence, fresh water requirement shall not exceed 81 KLD and it shall be met through Par River. Prior permission from concerned authority shall be obtained for withdrawal of water.
- 12. The industrial effluent generation from the project shall not exceed 20 KLD.
- 13. Industrial effluent shall be segregated and stream wise treated as follows
- 14. Total industrial effluent from proposed product and 4 KLD, domestic sewage shall be treated in ETP plant and then treated effluent shall be evaporated in in-house MEE.22 KLD, MEE condensate shall be reused back in process.
- 15. Unit shall fed wastewater to MEE only after assurance that no adverse impacts on Environment and Human Health.
- 16. Domestic wastewater generation shall not exceed 4 KL/day for proposed project and it shall be treated in ETP. It shall not be disposed off into soak pit.
- Unit shall provide buffer water storage tank of adequate capacity for storage of treated waste water during ant shut down of MEE.

Office: Gujarat Pollution Control Board, "Paryavaran Bhavan" Sector-10 A, Gandhinagar-382010 Page 2 of 9

Phone No.:- (079) 232-32152,232-41514 Fax No.:- (079) 232-22784 E-mail: msseiaagj@gmail.com, Website:- www.seiaa.gujarat.gov.in

- 18. Unit shall provide ETP and MEE with adequate capacity.
- 19. The PP shall ensure to dispose off Waste water to the Common Facilities having valid CTO of GPCB.
- 20. The unit shall provide metering facility at the inlet and outlet of ETP, MEE and maintain records for the same.
- 21. Proper logbooks of ETP, MEE; reuse/ recycle of treated/ untreated effluent; chemical consumption in effluent treatment; quantity & quality of treated effluent; power consumption etc. shall be maintained and shall be furnished to the GPCB from time to time.

A.3 AIR:

- 22. There shall be no use of fuel for proposed plant.
- 23. Unit shall provide adequate APCM with process gas generation sources as mentioned below.

Sr. No.	Specific Source of emission (Name of the Product & Process)	Type of Emission	Stack/Vent Height (meter)	Air Pollution Control Measures (APCM)
1	BTC Plant (Chlorination)	HCl, Cl₂	25	Falling Film Absorber followed by Caustic Scrubber

- 24. The fugitive emission in the workzoneenvironment shall be monitored. The emission shall conform to the standards prescribed by the concerned authorities fromtime to time (e.g. Directors of IndustrialSafety& Health). Following indicativeguidelines shall also be followed to reduce the fugitive emission.
 - > Internal roads shall be either concreted or asphalted or paved properly toreducethe fugitive emission during vehicular movement.
 - > Air borne dust shall be controlled with water sprinklers at suitable locations in the plant.
 - > A green belt shall be developed all around the plant boundary and also along the roads to mitigate fugitive & transport dust emission
- 25. Regular monitoring of Volatile Organic Compounds (VOCs) shall be carried out in the work zone area and ambient air.
- 26. Forcontrol of fugitive emission, VOCs, following steps shall be followed:
 - a. Closed handling and charging system shall be provided for chemicals.
 - b. Reflux condenser shall be provided over Reactors / Vessels.
 - c. Pumps shall be provided with mechanical seals to prevent leakages.
 - d. Air borne dust at all transfers operations/ points shall be controlled either by spraying water or providing enclosures.
- 27. Solvent management shall be carried out as follows:
 - Measures shall be taken to reduce the process vapors emissions as far as possible. Use of toxic solvents shall be minimum. All venting equipment shall have vapour recovery system
 - ✓ Reactor shall be connected to adequate chilling system to condensate solvent vapors and reduce solvent losses.
 - Reactor and solvent handling pump shall have mechanical seals to prevent leakages.
 - ✓ The condensers shall be provided with sufficient HTA and residence time so as to achieve maximum solvent recovery
 - Solvents shall be stored in a separate space specified with all safety measures.
 - Proper earthing shall be provided in all the electrical equipment wherever solvent handling is done.
 - ✓ Solvent storage and handling area shall be flame proof. The solvent storage tanks shall be provided with breather valve to prevent losses.
- 28. Regular monitoring of groundlevel concentration ofPM10, PM2.5, SO2, NOx, HCl,and VOCshall be carried out in the impactzoneand its records shall be maintained. Ambient air quality levels shall not exceed the standards stipulated by the GPCB. If at any stage these levels are found toexceed the prescribed limits, necessary additionalcontrol measures shall be taken immediately. The location of the stations and frequency of monitoring shall be decided in consultation with the GPCB.

A.4 SOLID / HAZARDOUS WASTE:

29. All the hazardous/ solid waste management shall be taken care as mentioned below.

S	Type/ Name	Specific Source of generation	Category and	Quantity (MT/ Annum)				
r. n o	of Hazar dous waste	(Name of the Activity, Product etc.)	Schedule as per HW Rules.	Existing	Proposed	Total	Management of HW	
1.	Drums/ HDPE Carboy s	Storage & handling of Raw Materials	33.1	700 nos./ month	300 nos./ month	1000 nos./ mont h	Collection, Storage, Transportation and sell after decontamination OR Collection, Storage, Transportation and sell to authorized party/ vendor OR	

ATT ANTENNAME

Office: Gujarat Pollution Control Board, "Paryavaran Bhavari" Sector-10 A, Gandhinagar-382010 Page 3 of 9
Phone No.:- (079) 232-32152,232-41514 Fax No.:- (079) 232-22784

E-mail: msseiaagj@gmail.com, Website:- www.seiaa.gujarat.gov.in

							Reuse after decontamination
2.	Salt from MEE	MEE	37.3	1901.85 M TPM	93.6 MTPM	1998 .15 MTP M	Collection, storage, Transportation, disposal at OWN TSDF OR selling to actual reuser OR disposal at common TSDF at SEPPL OR disposal at common TSDF at BEIL
3.	Sodiu m Hypo Chlorit e (~20%)	Process	B(15)	0.0	156 MTPM	156 MTP M	Collection, storage, transportation and sell to authorized industry having permission under Rule-9 of Haz. Rules, 2016
4.	Hydro Chloric Acid (30%)	Process	B(15)	0.0	1040 M TPM	1457 MTP M	Collection, storage, transportation and sell to authorized industry having permission under Rule-9 of Haz. Rules, 2016

- 30. Authorized end-users shall have permissions from the concerned authorities under the Rule 9 of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.
- 31 Unit shall explore the possibilities for environment friendly methods like co-processing of hazardous waste for disposal of Incinerable & land fillable wastes before sending to CHWIF & TSDF sites respectively.
- 32. The project proponent has to obtain membership of TSDF site & CHWIF before obtaining CTO of GPCB.
- 33. The unit shall submit the list of authorized end users of hazardous wastes along with MoU signed with them at least two months in advance prior to the commencement of production. In the absence of potential buyers of these items, the unit shall restrict the production of the respective items.

A. 5 OTHER:

- 34. The project proponent shall carry out the entire activities[Drinking water and sanitation facilities, Preservation of Environment, rain water harvesting & tree plantation, Miscellaneous as per local demands]proposed under CER shall be part of the Environment Management Plan (EMP) as per the MoEF&CC's OM no. F. No. 22-65/2017-IA.III dated 30.09.2020. This shall be monitored and the monitoring report shall be submitted to the regional office of MoEF&CC as a part of half-yearly compliance report and to the District Collector. The monitoring report shall be posted on the website of the project proponent.
- 35. All the environmental protection measures and safeguards proposed in the Form-1 & PFR submitted by the project proponent and commitments made in their application shall be strictly adhered to in letter and spirit.

B.GENERAL CONDITIONS:

B.1 CONSTRUCTION PHASE:

- 36. Water demand during construction shall be reduced by use of curing agents, super plasticizers and other best construction practices.
- 37. Project proponent shall ensure that surrounding environment shall not be affected due to construction activity. Construction materials shall be covered during transportation and regular water sprinkling shall be done in vulnerable areas for controlling fugitive emission.
- 38. All required sanitary and hygienic measures shall be provided before starting the construction activities and to be maintained throughout the construction phase.
- 39. First Aid Box shall be made readily available in adequate quantity at all the times.
- 40. The project proponent shall strictly comply with the Building and other Construction Workers' (Regulation of Employment & Conditions of Service) Act 1996 and Gujarat rules made there under and their subsequent amendments. Local bye-laws of concern authority shall be complied in letter and spirit.
- 41. Ambient noise levels shall conform to residential standards both during day and night. Incremental pollution load on the ambient air and noise quality shall be closely monitored during construction phase.
- 42. Use of Diesel Generator (DG) sets during construction phase shall be strictly equipped with acoustic enclosure and shall conform to the EPA Rules for air and noise emission standards.
- 43. Safe disposal of waste water and municipal solid wastes generated during the construction phase shall be ensured.
- 44. All topsoil excavated during construction activity shall be used in horticultural / landscape development within the project
- 45. Excavated earth to be generated during the construction phase shall be utilized within the premises to the maximum extent possible and balance quantity of excavated earth shall be disposed off with the approval of the competent authority after taking the necessary precautions for general safety and health aspects. Disposal of the excavated earth during construction phase shall not create adverse effect on neighbouring communities.
- 46. Project proponent shall ensure use of eco-friendly building materials including fly ash bricks, fly ash paver blocks, Ready Mix Concrete [RMC] and lead free paints in the project.

Phone No.:- (079) 232-32152,232-41514 Fax No.:- (079) 232-22784 E-mail: msseiaagj@gmail.com, Website:- www.seiaa.gujarat.gov.in

- 47. Fly ash shall be used in construction wherever applicable as per provisions of Fly Ash Notification under the E.P. Act, 1986 and its subsequent amendments from time to time.
- 48. "Wind breaker of appropriate height i.e. 1/3rd of the building height and maximum up to 10 meters shall be provided. Individual building within the project site shall also be provided with barricades.
- 49. "No uncovered vehicles carrying construction material and waste shall be permitted."
- 50 "No loose soil or sand or construction & demolition waste or any other construction material that cause dust shall be left uncovered. Uniform piling and proper storage of sand to avoid fugitive emissions shall be ensured."
- 51. Roads leading to or at construction site must be paved and blacktopped (i.e. -- metallic roads).
- 52. No excavation of soil shall be carried out without adequate dust mitigation measures in place.
- 53. Dust mitigation measure shall be displayed prominently at the construction site for easy public viewing.
- 54. Grinding and cutting of building materials in open area shall be prohibited.
- 55. Construction material and waste should be stored only within earmarked area and road side storage of construction material and waste shall be prohibited.
- 56 Construction and demolition waste processing and disposal site shall be identified and required dust mitigation measures be notified at the site. (If applicable).

B.2 OPERATION PHASE:

B.2.1 WATER:

- 57. The water meter shall be installed and records of daily and monthly water consumption shall be maintained.
- 58. All efforts shall be made to optimize water consumption by exploring Best Available Technology (BAT). The unit shall continuously strive to reduce, recycle and reuse the treated effluent.

B.2.2 AIR:

- 59. In case of use of spray dryer, the unit shall provide the adequate & efficient APCMs with spray dryer so that there should not be any adverse impact on human health & environment. Unit shall carry out third party monitoring of the proposed Spray dryer & it's APCM through the credible institutes and study report for impacts on Environment and Human Health shall be submitted to GPCB every year along with half yearly compliance report.
- 60. Acoustic enclosure shall be provided to the DG sets (If applicable) to mitigate the noise pollution and shall conform to the EPA Rules for air and noise emission standards.
- 61. Stack/Vents (Whichever is applicable) of adequate height shall be provided as per the prevailing norms for flue gas emission/Process gas emission.
- 62 Five gas emission & Process gas emission (If any) shall conform to the standards prescribed by the GPCB/CPCB/MoEF&CC. At no time, emission level should go beyond the stipulated standards.
- 63. All the reactors / vessels used in the manufacturing process shall be closed to reduce the fugitive emission.

B.2.3 HAZARDOUS/SOLID WASTE:

- 64. The company shall strictly comply with the rules and regulations with regards to handling and disposal of Hazardous waste in accordance with the Hazardous and Other Wastes (Management and Transboundary Movement) Rules 2016, as may be amended from time to time. Authorization of the GPCB shall be obtained for collection / treatment / storage / disposal of hazardous wastes.
- 65. Hazardous wastes shall be dried, packed and stored in separate designated hazardous waste storage facility with pucca bottom and leachate collection facility, before its disposal.
- 66. The unit shall obtain necessary permission from the nearby TSDF site and CHWIF. (Whichever is applicable)
- 67. Trucks/Tankers used for transportation of hazardous waste shall be in accordance with the provisions under the Motor Vehicle Act, 1988, and rules made there under.
- 68. The design of the Trucks/tankers shall be such that there is no spillage during transportation
- 69. All possible efforts shall be made for Co-Processing of the Hazardous waste prior to disposal into TSDF/CHWIF.
- Management of fly ash (If any) shall be as per the Fly ash Notification 2009 & its amendment time to time and it shall be ensured that there is 100% utilization of fly ash to be generated from the unit.

B.2.4 SAFETY:

- 71. The occupier/manager shall strictly comply the provisions under the Factories Act 1948 and the Gujarat Factories Rules 1963.
- 72 The project authorities shall strictly comply with the provisions made in Manufacture, Storage and Import of Hazardous Chemicals Rules (MSIHC) 1989, as amended time to time and the Public Liability Insurance Act for handling of hazardous chemicals etc. Necessary approvals from the Chief Controller of Explosives and concerned Govt. Authorities shall be obtained before commissioning of the project. Requisite On-site and Off-site Disaster Management Plans have to be prepared and implemented.
- 3 Main entry and exit shall be separate and clearly marked in the facility.
- 74. Sufficient peripheral open passage shall be kept in the margin area for free movement of fire tender/ emergency vehicle asound the premises
- 75. Storage of flammable chemicals shall be sufficiently away from the production area.

E-mail: msseiaagj@gmail.com, Website:- www.seiaa.gujarat.gov.in

- 76. Sufficient number of fire extinguishers shall be provided near the plant and storage area.
- 77. All necessary precautionary measures shall be taken to avoid any kind of accident during storage and handling of toxic / hazardous chemicals.
- 78. All the toxic/hazardous chemicals shall be stored in optimum quantity and all necessary permissions in this regard shall be obtained before commencing the expansion activities.
- 79. The project management shall ensure to comply with all the environment protection measures, risk mitigation measures and safeguards mentioned in the Risk Assessment report.
- 80. Only flame proof electrical fittings shall be provided in the plant premises.
- 81. Storage of hazardous chemicals shall be minimized and it shall be in multiple small capacity tanks / containers instead of one single large capacity tank / containers.
- 82. All the storage tanks shall be fitted with appropriate controls to avoid any leakages. Bund/dyke walls shall be provided for storage tanks for Hazardous Chemicals.
- 83. Handling and charging of the chemicals shall be done in closed manner by pumping or by vacuum transfer so that minimal human exposure occurs.
- 84. Tie up shall be done with nearby health care unit / doctor for seeking immediate medical attention in the case of
- 85. Personal Protective Equipments (PPEs) shall be provided to workers and its usage shall be ensured and supervised.
- 86. First Aid Box and required Antidotes for the chemicals used in the unit shall be made readily available in adequate quantity.
- 87. Training shall be imparted to all the workers on safety and health aspects of chemicals handling.
- 88. Occupational health surveillance of the workers shall be done and its records shall be maintained. Pre-employment and periodical medical examination for all the workers shall be undertaken as per the Factories Act & Rules.
- 89. Transportation of hazardous chemicals shall be done as per the provisions of the Motor Vehicle Act & Rules.
- 90. The company shall implement all preventive and mitigation measures suggested in the Risk Assessment Report.
- 91. Necessary permissions from various statutory authorities like PESO, Factory Inspectorate and others shall be obtained prior to commissioning of the project.

B.2.5 NOISE:

92. The overall noise level in and around the plant area shall be kept well within the standards by providing noise control measures including engineering controls like acoustic insulation hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise level shall confirm to the standards prescribed under The Environment (Protection) Act, 1986 & Rules.

B.2.6 CLEANER PRODUCTION AND WASTE MINIMISATION:

- 93. The unit shall undertake the Cleaner Production Assessment study through a reputed institute / organization and shall form a CP team in the company. The recommendations thereof along with the compliance shall be furnished to the GPCB USIN HIP
- 94. The company shall undertake various waste minimization measures such as :
 - a. Metering and control of quantities of active ingredients to minimize waste.
 - b. Reuse of by-products from the process as raw materials or as raw materials substitutes.
 - c. Use of automated and close filling to minimize spillages.
 - d. Use of close feed system into batch reactors.
 - e. Venting equipment through vapour recovery system.
 - f. Use of high pressure hoses for cleaning to reduce wastewater generation.
 - g. Recycling of washes to subsequent batches.
 - h. Recycling of steam condensate.
 - i. Sweeping / mopping of floor instead of floor washing to avoid effluent generation.
 - i. Regular preventive maintenance for avoiding leakage, spillage etc.

B.2.7 GREEN BELT AND OTHER PLANTATION:

- 95. The unit shall develop green belt within premises as per the CPCB guidelines. However, if the adequate land is not available within the premises, the unit shall take up adequate plantation on road sides and suitable open areas in GIDC estate or any other open areas in consultation with the GIDC / GPCB and submit an action plan of plantation for next three years to the GPCB.
- 96. Drip irrigation / low-volume, low-angle sprinkler system shall be used for the green belt development within the premises.
- 97. The PP shall develop greenbelt (411505Sq. m i.e. 36.54% of the total land area) as per the undertaking submitted before SEAC. Greenbelt shall be developed with native plant species that are significant and used for the pollution abatement as per the CPCB guidelines. It shall be implemented within 3 years of operation phase in consultation with GPCB.

B.3 OTHER CONDITION:

98. Project Proponent shall sponsor distribution of good quality of 10,000 grafted seedling of fruit species to the beneficiaries

Office: Gujarat Pollution Control Board, "Paryavaran Bhavan" Sector-10 A, Gandhinagar-382010 Page 6 of 9 Phone No.:- (079) 232-32152,232-41514 Fax No.:- (079) 232-22784 E-mail: msseiaagj@gmail.com, Website:- www.seiaa.gujarat.gov.in

- of the FRA in valsad district in consultation with both the District Forest officers in charge of Valsad North & South Forest Divisions and forest & Environment Department, New Sachivalaya Gandhinagar. This condition is as per the clarification given in para 3 of OM of MoEF&CC, GOI dated 25.02.2021. The expenditure of supporting above activities will be within the total outlay of CER including the other activities committed by PP.
- 99. The project proponent shall comply and abide with the undertaking submitted that the proposed project falls in Synthetic Organic Chemical (API & Its intermediates) i.e category 5(f)-B2.
- 100 Project proponent shall install all environment management systems as per the CPCB/GPCB directives regarding the effluent discharge and air emission in working condition.
- 101 Project proponent shall display the copy of Environment Clearance at the site prominently.
- 102. Project proponent shall prepare and follow regular and preventive maintenance plan. The copy of same shall be submitted to SEIAA
- 103. Project Proponent will have to display the safety procedure in working area.
- 104 The project proponent shall obtain all required permissions for safety, health and fire from competent authorities like PESO/Fire Authority etc. and intimate SEIAA.
- 105. Project Proponent will intimate SEIAA/SEAC/GPCB after obtaining the membership of common facilities like CETP / TSDF / CHWIF / CMEE / Common Spray Dryer as the case may be.
- 106. Extra care will be taken by PP to avoid any accidental blast in boiler, reactor or any machinery in the plant.
- 107. Environment monitoring, training and disaster management plan should be undertaken and complied at regular interval.
- *08.Integrated Regional Office of MoEF&CC,Gandhinagar and GPCB will monitor all environment, safety & health norms as per the prevailing rules.
- 109.The PP has to maintain the logsheets / registers / manifest / gate pass for discharge through tankers and SCADA system for pipeline discharge for the waste water generation and its disposal data and submit to the GPCB every quarter. GPCB shall verify the same on regular basis and inform SEIAA and take leagal action in the cases of non compliance.
- 110.Unit shall comply all the applicable standard conditions prescribed in Office Memorandum (OM) published by MoEF&CC vide no. F. No. 22-34/2018-IA.III dated 09/08/2018 for Pharmaceutical and Chemical industries mentioned at (Sr. no. XX).
- The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, the Construction and Demoition Waste Management Rules, 2016 and the Plastics Waste Management Rules, 2016 shall be followed.
- 112 Rain water harvesting (Off-site) shall be undertaken to conserve fresh water as well as to recharge ground water. Before recharging the surface run off, pre-treatment must be done to remove suspended matter. (Applicable for units consuming ground water ≥ 50 KLD in line with the prevailing guidelines of SPCB).
- 113. The anit shall join and participate financially and technically for any common environmental facility / infrastructure as and when the same is taken up either by the Industrial Association or GIDC or GPCB or any such authority created for this purpose by the Govt. / GIDC.
