## Note 1 Significant accounting policies

---

### 1 Basis of preparation

The Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The Financial Statements have been prepared on a historical cost basis.

All the assets and liabilities have been classified as current or non-current as per the normal operating cycle of the Company and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

### 2 Critical estimates and judgments

The preparation of Financial Statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

### 3 Investments

Investments in subsidiaries, associates and joint venture:

Investments in subsidiaries, associates and joint venture are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognised in the Statement of Profit and Loss.

Current investments not intended to be held for a period more than one year, are stated at lower of cost and fair value.

### 4 Preliminary expenses

The preliminary expenses represents expenditure incurred for formation of the Company. The same were amortised over the period of two years.
