Forward looking statements

In this Annual Report, we have shared information and made forward looking statements to enable investors to know our product portfolio, business logic and direction and thereby comprehend our prospects. Such statements that we make are based on our assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'believe', 'estimate', 'intend', 'plan', 'project' of words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised although we believe we have been prudent in our assumption. The actual results may be affected because of uncertainties, risks and even inaccurate assumptions. If uncertainties or known or unknown risks materialise or if underlying assumptions prove inaccurate, actual results may vary materially from those anticipated, believed, estimated, intended, planned or projected. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.

Corporate identity

Atul Bioscience Ltd (ABL) is engaged in the manufacturing and marketing of Active Pharma Ingredient (API) intermediates and serves customers belonging to the Pharmaceutical industry.

ABL is a wholly owned subsidiary company of Atul Ltd, a member of Lalbhai Group, one of the oldest business houses in India.

The Company manufactures API intermediates for different therapeutic areas, particularly, anti-asthmatic, anti-depressant, anti-diabetic, anti-inflammatory, anti-neoplastic, anti-retroviral and cardiovascular.

It is consistently adding to its manufacturing capacities to fulfil the growing demand of its customers.

Galvanised by Purpose

We are committed to significantly enhancing value for our stakeholders by:

- fostering a spirit of continuous learning and innovation
- adopting developments in science and technology
- providing high quality product and services, thus becoming the most preferred partner
- having people who practice Values and exemplify a high standard of behaviour
- seeking sustained, dynamic growth and securing long-term success
- taking responsible care of the surrounding environment
- improving the quality of life of the communities we operate in

Governed by Values

In an environment where change is a way of life, continuity of Values provides stability and is fundamental to us. We have therefore formalised key Values and are committed to institutionalising them. We will seek to create an environment wherein these Values are consistently practised and nurtured and ensure that they are not compromised.

Integrity

Working with honestly, following the highest standards of professionalism. Integrity is when our decisions and actions remain consistent with our thoughts and words, written of spoken

Understanding

How well we work with others depends on our ways to connect and this in turn is based on our level of Understanding of human relationships. This certainly does not mean that we accept poor performance, but that we do it the right way. Understanding is the external manifestation of internal realisation.

Unity

Working together and taking advantage of synergy while harnessing unique abilities of each of us to achieve a larger goal. Unity is the realisation that though we may work in different areas, we are finally interconnected and that interdependence is a higher order of living than independence. Though we may be many, we share a common purpose.

Responsibility

Delivering value and taking ownership of actions. Responsibility must also give us the realisation that what is good for the business must be in the overall good. In essence, we must work with a spirit of trusteeship for the Shareholders and other Stakeholders. What comes to us must be returned many times over.

Excellence

A drive that is more from inside than outside; it is about us seeking to continuously improve and develop an eye for innovation even in day to day work. Excellence is about excelling in everything we do and not giving up. Excellence is also a journey, not simply a destination in itself.

Management Discussion and Analysis

The business of Atul Bioscience Ltd (ABL) mainly comprises manufacturing and marketing of API intermediates. During the year, the Company acquired an API manufacturing facility located at Ambernath. Maharashtra from Polydrug products I aboratories Private The Itd. manufactured at Atul and Ambernath are used by customers belonging to the Pharmaceutical industry, under 6 broad therapeutic categories, namely, cardiovascular, anti-depressant, anti-diabetic, anti-fungal, anti-infective and anti-retroviral. The portfolio of the Company comprises 20 products, 5 of which are relatively new.

During 2018-19, the Company has focused on the production of advanced API intermediates, sales of which increased by 36% from 7645 lakhs to 10431 lakhs, primarily because of volume.

The size of the world Pharmaceutical industry is estimated at US\$ 1.75 tn, of which the conventional

pharmaceutical segment is estimated to be US\$ 1.3 tn. The size of the world API industry is estimated to be US\$ 160 bn. Following are a few estimates:

- Biologics to contribute about 52% of the top 100 product sales by 2022
- Oncology remains the largest therapy area in sales (+12.7% CAGR)
- Worldwide Pharmaceutical R&D spend is expected to grow (by 2.4% CAGR) to about US\$ 181 bn in 2022, with over US\$ 4bn R&D spend per NME over the last 10 years

The top 20 companies share 55% of the world market of prescription drugs and the top 20 generic companies dominate the generic drug space with a share of about 83%. 5 of these top 20 generic companies are Indian.

The main user industry, namely, Pharmaceutical, is growing well due to the increasing incidence of lifestyle

Management Discussion and Analysis

and age related diseases, increasing prevalence of cancer across the world, technological advancements in API manufacturing, emerging markets for biosimilars and increasing scope for highly potent active ingredients. On the other hand, stringent regulatory requirements and global economic recession may restrict market growth. The Company will participate in this growth by i) widening its market reach ii) increasing its manufacturing efficiencies iii) generating and adding capacities iv) introducing new products v) forming long-term strategic alliances with other companies

The prices of some products may come down in a short time. Fluctuations in foreign exchange may also impact input prices and sales realisations.

Internal Control Systems

Internal control systems of the Company are commensurate with the nature of its business and size and complexity of its operations. These are routinely tested, certified and upgraded wherever required by Statutory as well as Internal Auditors covering all key areas of business. Significant audit observations and follow up actions and recommendations thereon are reported to the higher Management and Audit Committee for their review.

The Company is working with reputed firms specialising in Internal Audit function. The efforts are

helping to introduce best practices required to manage its growing business.

Human Resources

The Company firmly believes its people are the most assets. important People processes are continually assessed and refined so as to keep the HR function dynamically aligned to the business needs and the changing environment. During 2018-19, succession planning was institutionalised and the performance management process was further refined to foster a performance oriented culture. At ABL, people development is a prerequisite for succession planning and hence, precedes it. Talent development activities were integrated development needs addressed through and diverse techniques like developmental dialogues, assignments, functional and cross functional projects, in-house capability building workshops, Management Development Programmes in premier institutes, mentoring and job rotations.

Employee Relations remained cordial and progressive, and the endeavour is to drive greater employee engagement and enhanced focus on progressive employee relation initiatives. We wish to completely eliminate the divide that sometimes separates managers and workmen and use the strengths of everyone to enhance the performance of the Company.

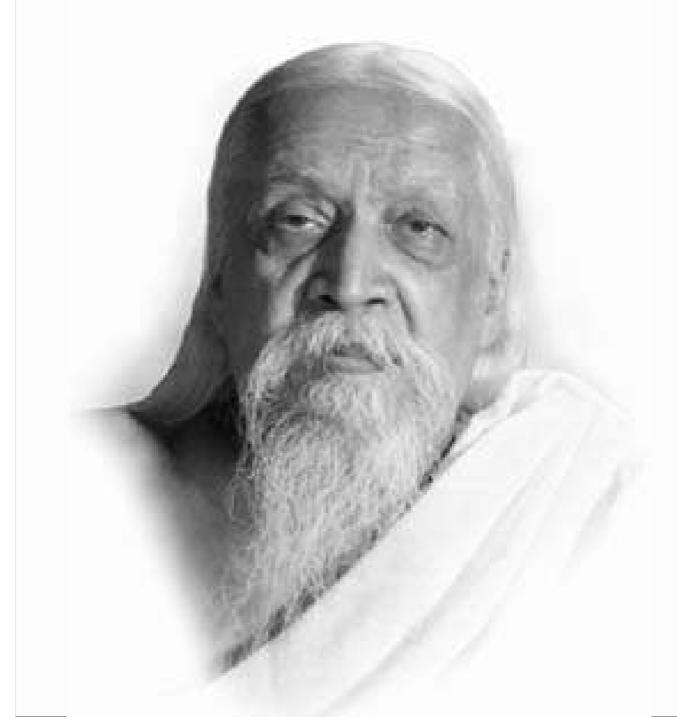

Corporate Governance Report

3

Wisdom is knowing the right path to take. Integrity is taking it. ~ Sri Aurobindo

Corporate Governance Report

1. Philosophy

Transparency and accountability are the 2 basic tenets of Corporate Governance. Atul Bioscience Limited is proud to belong to a Group whose Founder lived his life with eternal values and built the business enterprises on the foundation of good governance.

The Company is committed to conducting business the right way which means taking decisions and acting in a way that is ethical and in compliance with the applicable legal requirements. It endeavours to continuously improve its Corporate Governance performance with a view to earn trust and respect of all its Stakeholders.

The Board of Directors (Board) is responsible for and is committed to good Corporate Governance and plays a critical role in overseeing how the Management serves the short and long-term interests of the Shareholders and other Stakeholders.

2. Board

INDEPENDENT AUDITOR'S REPORT

To The Members of Atul Bioscience Limited Report on the Audit of the financial statements

Opinion

We have audited the accompanying financial statements of Atul Bioscience Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the financial statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information obtained at the date of this auditor's report is directors' report and its annexure, management discussion and analysis, corporate governance report and performance trend but does not include financial statements and our auditor's report thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

• If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section

143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, based on our audit on the separate financial statements we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

- d) In our opinion, the aforesaid financial statements comply with the specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- 2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Atul Bioscience Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on "the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Fixed Assets.
 - (b) The Property, plant and equipment were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, generally provides for physical verification of all the Fixed Assets at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and the records examined by us and based on the examination of the registered deed of assignment provided to us, we report that, the title deeds, comprising the immovable properties of buildings which are freehold, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land that have been taken on lease and disclosed as fixed asset in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
- (ii) As explained to us, the inventories (other than goods in transit) were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on physical verification
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ("the Act").
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year and there are no unclaimed deposits hence reporting under clause (v) of the Order is not applicable.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Act. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under sub-section (1) of Section 148 of the Act, and are of the opinion that, *prima facie*, the prescribed cost records have been made and maintained We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, cess,

Goods and Service Tax and other material statutory dues applicable to it to the appropriate authorities.

- (b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, cess, Goods and Service Tax and other material statutory dues in arrears as at March 31, 2019 for a period of more than six months from the date they became payable.
- (c) There are no disputed dues of Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax and Goods and Service Tax which have not been deposited as on March 31, 2019. Details of dues of Income-tax which has not been deposited as on March 31, 2019 on account of disputes is given below:

Name of	Nature of	Forum where	Period to which	Amount (Rs.)
Statute	Dues		the Amount	
		Pending	Relates	
The	Income tax	Income Tax	2010-11	11,24,904
Income		Appellate		
Tax Act,		Tribunal		
1961				

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to bank. The Company has not taken any loans or borrowings from financial institutions and government or has not issued any debentures.
- (ix) In our opinion and according to the information and explanations given to us, money raised by way of the term loans have been applied by the Company during the year for the purposes for which they were raised.
- (x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- (xi) In our opinion and according to the information and explanations given to us, the Company has paid / provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us, the Company has made preferential allotment of equity and preference shares during the year under review.
 - In respect of the above issue, we further report that:
 - a) the requirement of Section 42 of the Companies Act, 2013, as applicable, have been complied with; and

- b) the amounts raised have been applied by the Company during the year for the purposes for which the funds were raised.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of section 192 of the Act are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Background

Atul Bioscience Ltd (the Company) is a public company limited by shares, incorporated and domiciled in India. Its registered office and principal place of business is located at Atul 396 020, Gujarat, India.

The Company is in the business of Active Pharmaceutical Ingredient (API) intermediate and caters to the needs of customers belonging to the Pharmaceutical industry, under 6 broad therapeutic categories namely cardiovascular, anti-depressant, anti-diabetic, anti-fungal, anti-infective and anti-retro viral.

Note 1 Significant accounting policies

This Note provides a list of the significant accounting policies adopted by the Company in preparation of these Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of preparation:

i) Compliance with Ind AS:

The Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act as amended.

ii) Historical cost convention:

The Financial Statements have been prepared on a historical cost basis except for the following:

- a) Certain financial assets : measured at fair value
- b) Defined benefit plans : plan assets measured at fair value

iii) Recent accounting pronouncements:

Standards issued but not yet effective:

Ind AS 116, Leases: On March 30, 2019, Ministry of Corporate Affairs had notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases and related Interpretations. The Standard sets out the principles for recognition, measurement, presentation and disclosure of leases for both parties to a contract that is the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of Profit and Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 01, 2019. The standard permits two possible methods of transition:

- a) Full retrospective Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors
- b) Modified retrospective Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

Under modified retrospective approach, the lessee records the lease liability as the present value of the remaining lease payments, discounted at the incremental borrowing rate and the right-of-use asset either as:

- a) Its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date of initial application or
- b) An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments related to that lease recognized under Ind AS 17 immediately before the date of initial application.

The Company proposes to adopt the Standard on April 01, 2019 by using the 'Modified Retrospective Approach' for transitioning to Ind AS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 01, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Company has elected certain available practical expedients on transition. No material impact on Ind AS 116 is expected.

Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments: On March 30, 2019, the Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments, which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax credits and tax rates.

The effect on adoption of Ind AS 12 Appendix C is not expected to be material in the Financial Statements.

Amendment to Ind AS 12 – Income taxes: On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

The amendment will be effective from April 01, 2019. The effect on adoption of Amendment to Ind AS 12 is not expected to be material in the Financial Statements.

Amendment to Ind AS 19 – plan amendment, curtailment or settlement- On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

a) to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and

 b) to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The Company does not have any impact on account of this amendment.

b) Property, plant and equipment:

All items of property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the carrying amount of assets or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of assets are recognised in the Statement of Profit and Loss.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital work-in-progress'.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on the straight-line method to allocate the cost of assets net of their residual values, over their estimated useful lives.

Depreciation is calculated on a pro-rata basis from the date of acquisition | installation till the date the assets are sold or disposed of:

Asset category	Estimated useful life
Building	upto 60 years
Plant and machinery	upto 20 years
Office equipment	upto 05 years
Computer equipment	upto 06 years
Furniture and fixtures	upto 10 years

The useful lives have been determined based on technical evaluation done by the Management experts which are different from the useful life prescribed in Part C of Schedule II to the Act, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed annually and adjusted

prospectively, if appropriate.

Land accounted under finance lease is amortised on straight-line basis over the primary period of lease.

The carrying amount of an asset is written down immediately to its recoverable amount if the carrying amount of the asset is greater than its estimated recoverable amount.

c) Intangible assets:

i) Goodwill

Goodwill represents the cost of the acquired businesses in excess of the fair value of identifiable net assets acquired. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

ii) Computer Software

Computer software includes enterprise resource planning project and other cost relating to such software which provides significant future economic benefits. These costs comprise license fees and cost of system integration services.

Computer software cost is amortised over a period of 3 years using the straight-line method

iii) Non compete fees

Non compete fees represent future economic benefits arising out of potential business. Such assets are measured on initial recognition at cost. Following initial recognition, non compete fees are carried at cost less any accumulated amortisation and accumulated impairment losses if any.

Amortisation methods, estimated useful lives and residual value:

Intangible assets with finite lives are amortised over the useful economic life on straight line basis and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed annually and adjusted prospectively, if appropriate.

Estimated useful lives of the intangible assets are as follows:

Asset category	Estimated useful life
Non-compete fees	Upto 5 years
Computer software	Upto 3 years

d) Impairment of assets:

The carrying amount of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal | external factors. An impairment loss on such assessment is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances and to the extent that carrying amount of the assets does not exceed the carrying amount that will be determined if no impairment loss had previously been recognised.

e) Investment and other financial assets: Classification:

The Company classifies its financial assets in the following measurement categories:

- i) Those to be measured subsequently at fair value (either through Other Comprehensive Income, or through Profit and Loss), and
- ii) Those measured at amortised cost

The classification depends on business model of the Company for managing financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

Initial recognition and measurement:

Financial asset is recognised when the Company becomes a party to the contractual provisions of the instrument. Financial asset is recognised initially at fair value. Cost of transaction is added to fair value in case the financial asset is not recorded at fair value through profit or loss. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Subsequent measurement:

After initial recognition, financial assets are measured at:

- i) Fair Value (either through Other Comprehensive Income [FVOCI] or through Profit or Loss [FVPL]) or
- ii) Amortised cost

Equity instruments:

The Company measures all investments in equity instruments other than subsidiary company, associate company and joint venture company at fair value. The Management has elected to present fair value gains and losses of the Company on such equity investments in Other Comprehensive Income, and there is no subsequent reclassification of these fair value gains and losses to the Statement of Profit and Loss. Dividends from such investments continue to be recognised in profit or loss as other income when the right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. 9

Impairment of financial assets:

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at a mortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 26.8 details how the Company determines whether there has been a significant increase in credit risk.

De-recognition:

A financial asset is de-recognised only when the Company:

- i) has transferred the rights to receive cash flows from the financial asset or,
- ii) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Income recognition:

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established; it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Financial liabilities:

i) Classification as debt or equity:

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

ii) Initial recognition and measurement:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

iii) Subsequent measurement:

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iv) De-recognition:

A financial liability is de-recognised when the obligation specified in the contract is

discharged, cancelled or expires.

f) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

g) Inventories:

Inventories are stated at cost or net realisable value whichever is lower. Cost is determined on moving weighted average basis.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition.

Due allowances are made for slow moving and obsolete inventories based on estimates made by the Company.

Items such as spare parts, stand-by equipment and servicing equipment which are not plant and machinery get classified as inventory.

h) Trade receivables:

Trade receivables are recognised when the right to consideration becomes unconditional. These assets are held at amortised cost, using the effective interest rate (EIR) method where applicable, less provision for impairment based on expected credit loss.

i) Cash and cash equivalents:

Cash and cash equivalents include cash in hand, demand deposits with bank and other shortterm (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

j) Borrowings:

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at a mortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income I (expense).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

k) Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

I) Employee benefits:

Defined benefit plan:

Gratuity:

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is paid to a Trust administered by the Company, which in turn invests in eligible securities to meet the liability as and when it accrues for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on Government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate at the beginning of the period to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in Other Comprehensive Income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans:

Contributions to defined contribution scheme of Provident Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Short term employee benefits:

All employee benefits payable within 12 months of service such as salaries, wages, bonus, exgratia, medical benefits, etc are recognised in the year in which the employees render the related service and are presented as current employee benefit obligations in the Balance Sheet. Termination benefits are recognised as an expense as and when incurred.

Short- term employee benefits are provided at undiscounted amount during the accounting period based on service rendered by employees.

Other long-term employee benefits:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the Balance Sheet if the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

m) Income tax:

The income tax expense or credit for the period is the tax payable on the taxable income of the current period based on the applicable income tax rates adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit | (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset

current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

n) Trade and other payables:

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

o) Provisions and contingent liabilities:

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each year end and reflect the best current estimate. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

p) Revenue recognition:

Revenue from contracts with customers:

The Company adopted Ind AS 115, 'Revenue from Contracts with Customers' using the modified retrospective transition method effective from April 01, 2018.

The Company manufactures and sells Active pharma ingredient intermediates in domestic and international market.

Revenue is recognised when control of goods is transferred to a customer in accordance with the terms of the contract. The control of the goods is transferred upon delivery to the customers either at factory gate of the Company or specific location of the customer or when the goods are handed over to the freight carrier, as per the terms of the contract. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Revenue from services including those embedded in contract for sale of goods namely freight and insurance services mainly in case of export sales, is recognised upon completion of services.

Revenue is measured based on the consideration to which the Company expects to be entitled as per contract with a customer. The consideration is determined based on the price specified in the contract, net of the estimated variable consideration. Accumulated experience is used to estimate and provide for the variable consideration, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. Contracts with customers are for short-term, at an agreed price basis having contracted credit period ranging upto 90 days. The contracts do not grant any rights of return to the customer. Returns of Goods are accepted by the Company only on an exception basis. Revenue excludes any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax.

Other revenue:

Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

Interest income from financial assets is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

q) Leases:

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate expected inflationary cost increases for the lessor.

r) Foreign currency transactions:

Functional and presentation currency:

Items included in the Financial Statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('functional currency '). The Financial Statements of the Company are presented in Indian currency (₹), which is

also the functional and presentation currency of the Company.

Transactions and balances:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gain I (loss) resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in Statement of Profit and Loss. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net "basis within" other income I (expense).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain I (loss).

s) Earnings per share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of Equity shares outstanding during the period.

Diluted earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the sum of weighted average number of Equity shares outstanding during the period and weighted average number of Dilutive shares outstanding during the period.

t) Dividend:

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

u) Contributed equity:

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

v) Business Combinations:

Business Combinations are accounted for using the acquisition method as per Ind AS 103. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

Excess of purchase consideration over the fair value of net identifiable assets acquired is recognised as goodwill. Excess of the fair value of net identifiable assets acquired over the purchase consideration, is recognised as capital reserve.

Acquisition related costs are recognized in the Statement of Profit and Loss as incurred.

Critical estimates and judgements:

Preparation of Financial Statements requires use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgements or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

- i) Estimation of useful life of tangible assets: Note 2
- ii) Estimation of defined benefit obligation: Note 27.6
- iii) Estimation of fair values of contingent liabilities: Note 27.1
- iv) Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future event s that may have a financial impact on the Company and that are believed to be reasonable under the circumstances

b) Terms and rights attached to equity shares

The Company has one class of shares referred to as equity shares having a par value of ₹10.

i) Equity shares:

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts and preference shares. The distribution will be in proportion to the number of equity shares held by the shareholders. Each holder of equity shares is entitled to one vote per share.

ii) Dividend:

The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board is subject to the approval of the Shareholders in the ensuing Annual General Meeting, except in case of interim dividend.

iii) During the year, the Company has issued and allotted 45,45,455 equity shares of face value of ₹ 10 per share to the Holding Company on preferential basis at a price of ₹ 22 per share (including a premium of ₹ 12 per share) after the requisite approval of shareholders in the Extra Ordinary General Meeting held on November 21, 2018.

c) During the year, the Company has declared interim dividend of ₹ Nil per equity share (March 31, 2018 : ₹ 6.50).

d) Details of shares held by the Holding Company, including shareholders holding more than 5% shares of the Company.

Capital contribution from Atul Ltd represents equity component of 8% redeemable optionally convertible cumulative preference shares.

@ Equity capital pending allotment of shares represents 8% redeemable optionally convertible cumulative preference shares for which conversion option has been exercised by Atul Ltd, pending allotment of shares as at March 31, 2019.

Nature and purpose of reserves

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, any transfers from or to OCI, dividends or other distributions paid to shareholders.

Other comprehensive income

Other comprehensive income is remeasurement gains | losses till date on defined benefit plans, net of tax.

Note 20 Revenue from operations	2018-19	2017-18		
Revenue from Contracts with customers:				
Sale of products (including excise duty)*	10,431.13	7,855.30		
Sale of raw material	37.07	13.27		
Scrap sales	22.06	26.90		
Other operating revenue :				
Export incentives	20.19	13.25		
	10,510.45	7,908.72		

* Revenue from operations upto June 30, 2017 includes excise duty of ₹ 210.86 Lakhs, which is discontinued effective July 01, 2017 upon implementation of Goods and Services Tax (GST) in India. In view of the aforesaid restructuring of Indirect taxes, revenue from operations for the year ended on March 31, 2019 is not comparable with the previous year.

Contracts with customers are for short-term, at an agreed price basis having contracted credit period ranging upto 90 days. These contracts are mainly for sale of goods in domestic and international markets besides sale of scrap sales. Delivery of goods are either at ex-works or at an alternate agreed place at an agreed point in time. The contracts do not grant for any rights to return to the customer. Returns of goods are accepted by the Company only on exception basis.

Note 27.1 Contingent liabilities		
Claims against the Company not acknowledged as debts		
		(₹ lakhs)
Particulars	As at	As at
	March 31, 2019	March 31, 2018
Claims against the Company not acknowledged as debts in respects of:		
i) Income tax*	11.25	3.47
ii) Provident fund*	1.61	

The above matters are currently being considered by the tax authorities and the Company expects the judgement will be in its favour and has therefore, not recognised the provision in relation to these claims. Future cash outflow in respect of above will be determined only on receipt of judgement | decision pending with tax authorities. The potential undiscounted amount of total payments for taxes that the Company could be required to make if there was an adverse decision related to these disputed demands of regulators as of the date reporting period ends are as illustrated above. * excluding interest and penalty

Note 27.6 : Employee benefit obligations

Funded schemes

a) Defined benefit plans: Gratuity: The Company operates a gratuity plan through the 'Atul Bioscience Staff Gratuity Trust'. Every employee is entitled to a benefit equivalent to fifteen days salary last drawn for each completed year of service in line with the Payment of Gratuity Act, 1972 or Company scheme whichever is beneficial. The same is payable at the time of separation from the Company or retirement, whichever is earlier. The benefits vest after five years of continuous service.

Particulars	Present value of obligation	Fair value of plan assets	Net amount
March 31, 2017	11.89	(9.60)	2.29
Current service cost	1.35	-	1.35

Benefit payments		-	
March 31, 2019	90.94	(57.64)	33.30
The net liability disclosed above relates to funded and unfunded plans are as follows:			(₹ lakhs)
		As at	As at
Particulars		March 31,	March 31,
		2019	2018
Present value of funded obligations		90.94	13.68
Fair value of plan assets		-57.64	-6.77
Deficit of Gratuity plan		33.30	6.91
Current		24.77	5.31
Non-current		8.53	1.60
Significant estimates: Actuarial assumptions and sensitivity			
The significant actuarial assumptions were as follows:			
		As at	As at

Particulars	March 31,	March 31,
	2019	2018
Discount rate	7.22%	
Salary escalation rate	8.04%	8.27%
Rate of return on plan assets	7.22%	7.71%
Attrition rate	11.87%	

Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	Increase (decrease) in defined benefit obligation									
Particulars	Change in as	sumptions		Increase in a	ssumptions			Decrease in	assumptions	
	March 31, 2019	March 31, 2018	March 3	1, 2019	March 3	1, 2018	March	31, 2019	March 31,	2018
Discount rate	1.00%	1.00%	(4.69%)	(4.26)	(5.55%)	(0.76)	5.26%	4.79	6.31%	0.86
Salary escalation rate	1.00%	1.00%	5.17%	4.70	6.21%	0.85	(4.70%)	(4.27)	(5.57%)	(0.76)
Attrition rate	1.00%	1.00%	(0.49%)	(0.44)	(0.71%)	(0.10)	0.52%	0.48	0.75%	0.10

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Major category of plan assets are as follows:

major category of plan assets are as follows.								
								(₹ lakhs)
Particulars		As at Marc	h 31, 2019			As at Ma	rch 31, 2018	
r al liculais	Quoted	Unquoted	Total	in %	Quoted	Unquoted	Total	in %
Investment funds								
Insurer managed fund (Life Insurance Corporation of India)	-	57.64	57.64	100%	-	6.77	6.77	100%
	-	57.64	57.64	100%	-	6.77	6.77	100%

Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk

A fall in the discount rate which is linked to the Government security rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, It has a relatively balanced mix of investments in government securities, and other debt instruments.

Concentration risk

Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

Expected contributions to post-employment benefit plans for the year ending March 31, 2020 are ₹ 24.77 lakhs.

The weighted average duration of the defined benefit obligation is 6 years (2017-18: 7 years). The expected maturity analysis of gratuity is as follows:

					(₹ lakns)
Particulars	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
Defined benefit obligation (gratuity)					
As at March 31, 2019	23.16	7.66	24.39	89.56	144.77
As at March 31, 2018	1.10	1.16	5.41	24.41	32.08

b) Defined contribution plans:

The Company makes contributions towards provident fund and employee state insurance scheme for qualifying employees as per regulations. The provident fund is administered by the government. The obligation of the company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards above contribution plans is ₹ 12.74 lakhs (March 31, 2018 : ₹ 6.42 lakhs).

c) The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market. Mortality rates are obtained from the relevant data.

d) Compensated absences

The Compensated absences covers the liability for earned leave. Out of the total amount disclosed in Note 16, the amount of ₹ 4.37 lakhs (March 31, 2018: ₹ 1.38 lakhs) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.

(₹ lakhs,

(ii) Fair value hierarchy and valuation technique used to determine fair value

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

			(₹ lakhs)
Assets and liabilities measured at fair value - recurring fair value	Note	As at March 31, 2019	As at March 31, 2018
measurements		<u> </u>	
		Investment in equity instruments	Investment in equity instruments
Level 1	[-	-
Level 2	[-	-
Level 3	4	0.70	0.70

The difference between the fair value and the carrying amount of the investment in equity instruments is not expected to be material and hence has not been fair valued and is classified as level 3.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have a quoted price. The fair value of all equity instruments which are traded on the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing net assets value (NAV)

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(iii) Fair value of financial assets and liabilities measured at amortised cost (₹ lakhs) As at March 31, 2018 As at March 31, 2019 Particulars Carrying Carrying Fair value Fair value amount amount Financial assets Trade receivables 3.281.12 3.281.12 1.944.72 1.944.72 Cash and cash equivalents 3.76 3.76 1.12 1.12 Bank balances other than cash and cash equivalents above 12.99 12.99 12.22 12.22 Other receivables 31.90 31.90 0.29 0.29 Bank deposits with more than 12 months maturity 0.39 0.39 0.39 0.39 Total financial assets 3,330.16 3,330.16 1,958.73 1,958.73 **Financial Liabilities** 1,283.18 1,283.18 Borrowings 1,599.25 1,599.25 Trade payables 2,564.09 2,564.09 1,157.90 1,157.90 13.54 Interest accrued but not due 13.54 1.49 1.49 4,917.23 Creditor for capital goods 4,917.23 59.64 59.64 Dividend payable on preference shares Interim dividend payable on equity shares 15.78 15.78 704.60 704.60 Employee benefits payable 130.30 130.30 34.49 34.49 Retention money 11.27 11.27 12.65 12.65 Other 1.00 1.00 0.50 0.50 Total financial liabilities 9,252.46 9,252.46 3,254.45 3,254.45

The carrying amounts of trade receivables, trade payables, other receivables, bank deposits with more than 12 months maturity, creditors for capital goods, cash and cash equivalents and bank balances other than cash and cash equivalents, interest accrued but not due, dividend payable on preference share, interim dividend payable on equity shares, employee benefit payables, retention money, other financial liabilities are considered to be the same as their fair values.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the

use of unobservable inputs, including own credit risk. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(iv) Valuation processes

The finance department of the Company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes including level 3 fair values.

Note 27.8: Financial risk management

1. Business activities of the Company expose it to a variety of financial risks, namely market risks (that is foreign exchange risk, interest rate risk), credit risk and liquidity risk. The management of the Company has the overall responsibility for the establishment and oversight of risk management framework of the Company. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring risk management policies of the Company. The risk management policies of the Company are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the activities of the Company. The risk management of the Company focuses on the unpredictability of these elements and seeks to minimise the potential adverse effects on its financial performance.

2. The Risk Management Committee of the Company is supported by the Finance department that provides assurance that the financial risk activities of the Company are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the policies and risk objectives of the Company. The Finance department activities are designed to:

- protect the financial results of the Company and position from financial risks

- maintain market risks within acceptable parameters, while optimising returns; and

- protect the financial investments of the Company, while maximising returns.

The Finance department is responsible to maximise the return on companies internally genereted funds.

(a) Management of liquidity risk

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The approach of the Company to manage liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the credit rating of the Company and impair investor confidence.

(i) Maturities of financial liabilities

The following table shows the maturity analysis of the financial liabilities of the Company based on contractually agreed undiscounted cash flows as at the Balance sheet date:

					(₹ lakhs)
As at March 31, 2019	Note	Carrying amount	Less than 12 months	More than 12 months	Total
Borrowings	14	1,599.25	745.90	853.35	1,599.25
Trade payables	19	2,564.09	2,564.09	-	2,564.09
Other financial liabilities	15	5,080.59	5,080.59	-	5,080.59
Total non-derivative liabilities		9,243.93	8,390.58	853.35	9,243.93

					(₹ lakns)
As at March 31, 2018	Note	Carrying amount	Less than 12 months	More than 12 months	Total
Borrowings	14	1,283.18	1,283.18	-	1,283.18
Trade payables	19	1,157.90	1,157.90	-	1,157.90
Other financial liabilities	15	811.77	811.77	-	811.77
Total non-derivative liabilities		3,252.85	3,252.85	-	3,252.85

(Flakha)

Page 83 of 92

b) Management of credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations.

i) Trade Receivables

Sales to a new party is usually against advance | under a Letter of Credit (LC). As a policy LC of only top banks is accepted. More than 50% of sales is either on advance or under LC. Further, trade receivables for sales on open terms are monitored monthly and in case of overdue, timely alerts are provided. Our historical experience of collecting receivables, supported by the level of default, is that credit risk is low.

ii) Other financial assets

The Company maintains exposure in cash and cash equivalents and term deposits with banks. The same are maintained with banks or financial institutes of repute. Credit limits and concentration of exposure are actively monitored by the finance department of the Company.

The maximum exposure to credit risk as at March 31, 2019 and March 31, 2018 is the carrying value of each class of financial assets as disclosed in Note 4, 5, 9, 10, and 11.

(c) Management of market risk

The size and nature of operations of company expose it to various market risks which may affect the income and expenses of the Company, or the value of its financial instruments. The objective of the management of the Company of market risk is to maintain this risk within acceptable parameters, while optimising returns. The exposure of the Company to, and management of, these risks is explained below:

(i) Foreign currency risk

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the functional currency (INR) of the Company. The risk is measured through a forecast of highly probable foreign currency cash flows.

The above risks may affect the income and expenses of the Company, or the value of its financial instruments. The objective of the management of the Company of market risk is to maintain this risk within acceptable parameters, while optimising returns. The exposure of the Company to, and management of, these risks is explained below:

i a) Foreign currency risk exposure:

The exposure of the Company to foreign currency risk at the end of the reporting period, are as follows

Deutlinuleur	As at Marc	h 31, 2019	As at March 31, 2018		
Particulars	Amount in \$	Amount in ₹	Amount in \$	Amount in ₹	
Financial assets	-	-	-	-	
Trade receivables	1.02	70.33	1.86	120.70	
Other receivable	-	-	-	-	
Net exposure to foreign currency risk (assets)	1.02	70.33	1.86	120.70	
Financial liabilities	-	-	-	-	
Trade payables	6.65	460.01	4.69	305.18	
Capital creditors	-	-	-	-	
Others	-	-	-	-	
Net exposure to foreign currency risk (liabilities)	6.65	460.01	4.69	305.18	
Net exposure to foreign currency risk	(5.63)	(389.68)	(2.83)	(184.48	

i b) Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from recognised financial assets and liabilities not denominated in Indian rupee (INR) and future commercial transactions. The following table explains the sensitivity of profit or (loss) with respect to movement of exchange rate on net open position as on balance sheet date:

		(₹ lakhs)
	Impact o	on profit
Particulars	As at	As at
	March 31, 2019	March 31, 2018
USD sensitivity		
INR depreciates against USD by₹1	(5.63)	(2.84)
INR appreciates against USD by ₹ 1	5.63	2.84

(ii) Cash flow and fair value interest rate risk

The main interest rate risk of the Company arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. Some part of the borrowings of the Company are at variable rates denominated in INR. The Company manages interest rate risks by keeping mixture of loans from group and third parties with fixed as well as floating rate loans. The borrowings are at amortised cost. Further the Company keeps a watch on RBI policy and market movements to arrive at decision so as to hedge the exposure or keep it open.

ii a) Interest rate risk exposure

The exposure of the borrowing of the Company to interest rate changes at the end of the reporting period are as follows:

		(₹ lakhs)
	As at	As at
Particulars	March 31, 2019	March 31, 2018
Variable rate borrowings	449.25	133.18
Fixed rate borrowings	1,150.00	1,150.00
Total borrowings	1,599.25	1,283.18

ii b) Sensitivity

Profit or loss is sensitive to higher | lower interest expense from borrowings as a result of changes in interest rates. The following table depicts the sensitivity of profit | loss with respect to changes in interest rate

		(₹ lakhs)
	Impact o	n profit
Particulars	As at	As at
	March 31, 2019	March 31, 2018
Interest rates – increase by 100 basis points	(4.49)	(1.33)
Interest rates – decrease by 100 basis points	4.49	1.33

* Holding all other variables constant

Note 27.9: Capital management

The primary objective of the capital management of the Company is to maximise shareholder value. The Company monitors capital using Debt-Equity ratio, which is total debt divided by total equity.

For the purposes of capital management, the Company considers the following components of its Balance Sheet to manage capital:

Total equity includes retained earnings, share capital, security premium, other comprehensive income | loss, capital contribution and equity capital pending allotment of shares. Total debt includes current debt plus non-current debt.

		(₹)
Particulars	As at	As at
	March 31, 2019	March 31, 2018
Total debt	1,599.25	
Total equity	6,164.55	2,358.90
Debt-Equity ratio	0.26	0.54

Note 27.10 Segment information

The operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") of the Company. The CODM, who is responsible for allocating resources and assessing performance, has been identified as the Managing Director of the Company. The Company operates in only one business segment ie. Active Pharmaceutical Ingredient (API) intermediates. Further, since the revenue generated in India and non-current assets other than financial assets located within India are greater than 90% of the total revenue and total non-current assets other than financial assets respectively of the Company, hence the Company does not have any reportable Segments as per Indian Accounting Standard 108 "Operating Segments".

Revenue of approximately ₹ 3,563.36 lakhs ₹ 969.73 lakhs and ₹ 953.32 lakhs (March 31, 2018 : ₹ 2,422.24 lakhs ₹ 940.64 lakhs and ₹ 675.10 lakhs) are derived from three external customers attributable to the Active Pharmaceutical Ingredient (API) intermediates segment.

Note 27.11 Earnings per share

Basic Earnings per share (BEPS) - The numerators and denominators used to calculate basic EPS

	· · · · · · · · · · · · · · · · · · ·		
Particulars		2018-19	2017-18
